

COW POX

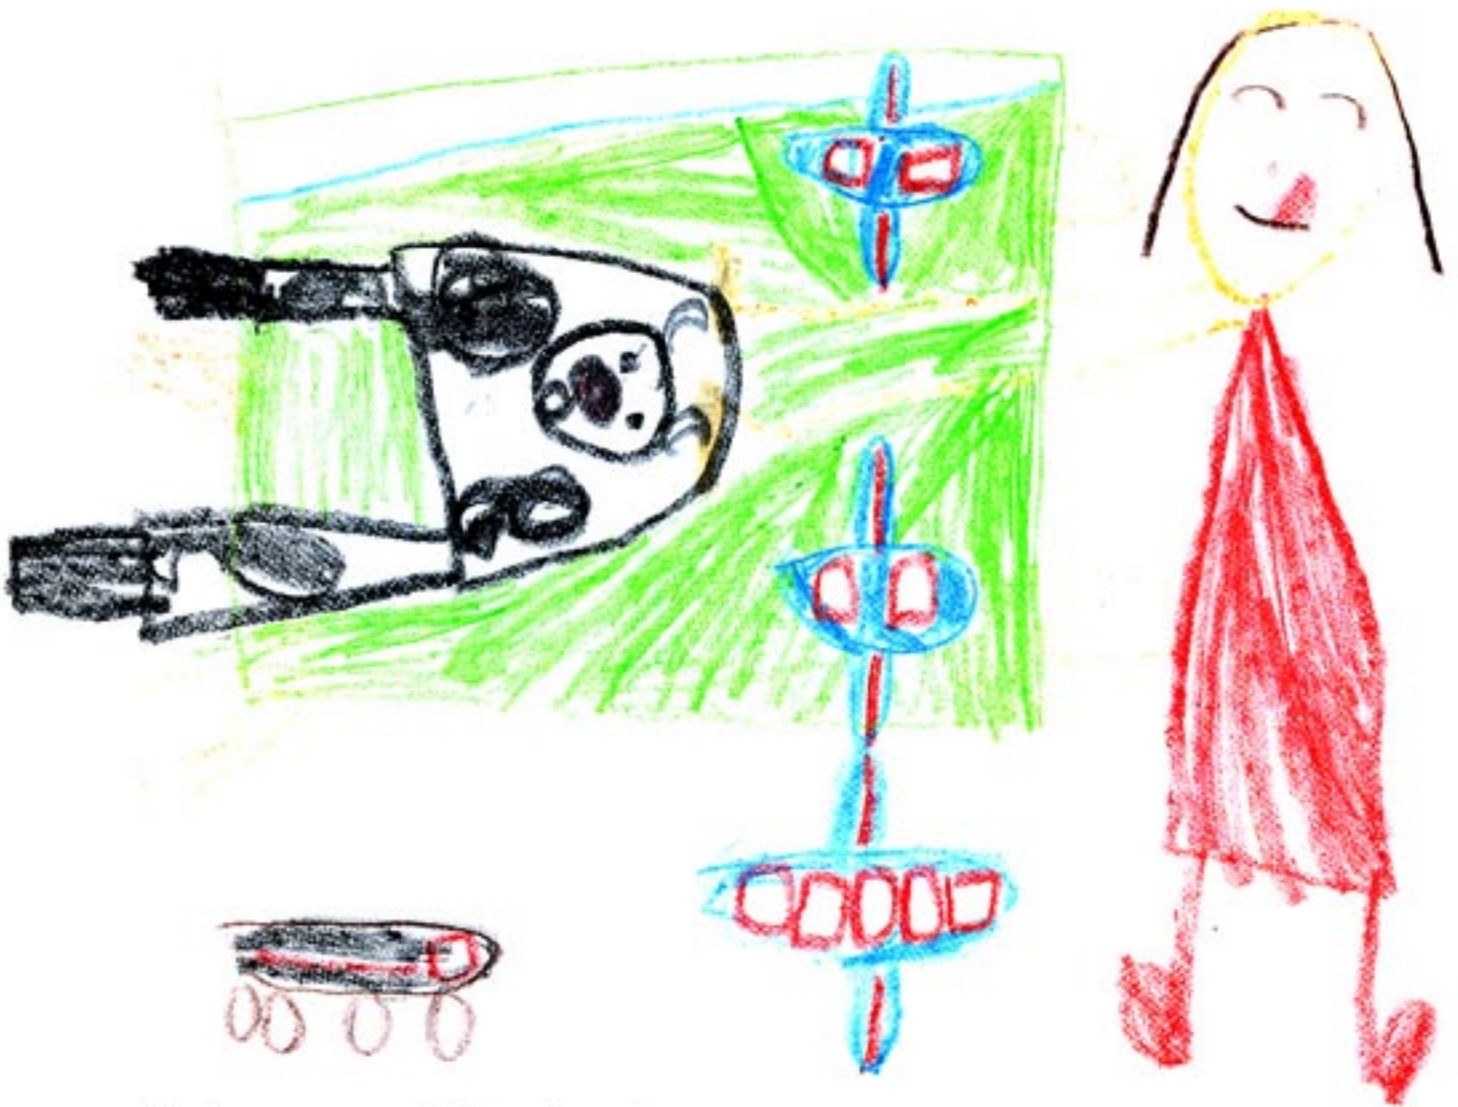

By: Lilliana

It all started one evening when Andrew ate a blade of grass. His sister, Jenny told their parents. They didn't seem too worried.

The next morning, Jenny screamed when she saw a cow sleeping in Andrew's bed. "Mom, Andrew's a cow! He's a COW!" she yelled. "What?" said Mom, coming up the stairs. Mom couldn't believe her eyes. She blinked. Andrew really was a cow! "Oh no, this is bad!" said Mom. She had to get Andrew to the doctor!

"Andrew, get out of bed now!" said Mom. Andrew said, "Mooooooooooooooooooooo," but didn't budge. So Mom pulled him by his horns and finally got him up. She walked him to the doctor's office.

The doctor told Mom that Andrew had Cow Pox. "There is no cure for Cow Pox," said the doctor.

At home, the whole family was trying to think of a cure for Cow Pox when Jenny had an idea. "Andrew ate grass and turned into a cow. Maybe if we feed him people food, he'll turn back into a boy!" So Dad fed Andrew a sandwich and he turned back into a boy! Everyone shouted, "Hooray! Andrew is a boy again. Jenny cured Cow Pox!"
